SESSION 01: LEARNING ABOUT LIGHT

WELCOME!

We're excited you're joining us today and we want to take the opportunity to introduce ourselves. Feel free to write down the name of your instructor and their contact info. Throughout the day, if you make some fellow photog friends, we've got a place to jot down their info as well.

PURPOSE

The purpose of this course is to enable you to:

- Become familiar with the main features and functions of your camera
- Understand the relationship between those functions and your photographic results
- Feel more confident and enthusiastic about using your camera frequently and creatively.

INTRODUCTION

WHAT WILL WE BE USING?

We'll be covering a lot of ground today and using a lot of resources. Here's a list of what we'll be referencing throughout the course.

MATERIALS

- The On-Screen Presentation
- This Participant Guide
- Your Camera Manual
- Your Camera
